

Fence Contractors Announce New Services In Sacramento

November 09, 2016

November 09, 2016 - PRESSADVANTAGE -

Pro Fence Contractors is a new business in Sacramento, California, that builds and repairs all types of fences. The company has recently opened its doors for service and states that their professional fence contractors are ready to serve residential and commercial customers all around the Sacramento area.

"We look forward to serving our community and helping residents with all kinds of fencing needs," says a spokesperson for the company.

The company will be specializing in constructing and repairing wooden, chain, and vinyl fencing, and has a pricing structure set up on their website for potential customers to get an idea of the overall cost of having their new fence constructed. Those interested can visit the website at <http://profencecontractors.com>.

The spokesperson for the company says, "We care about our team members and engineers, but we mostly care about our clients. We want you to be completely satisfied with your new fence, and we go out of our way to ensure that this is the case on every job we complete."

The company states that if there is an issue with one of their fences, they will come back again and again until the issue is resolved and the client is satisfied. They cover all of their fencing installations with standard general liability insurance.

The company states that in order to provide an accurate price quote, an estimator will visit the customer and give an overall quote for the installation or repair services needed. They state that once the customer agrees to the price, they will begin working, generally on the same day as the quote is provided. The quote itself is offered free of charge and the company states that there will be no pressure and no questions asked should the customer refuse the service at the time of the quote.

Pro Fence Contractors will be offering their services in Sacramento and state that they may work with clients outside the area. Those interested can visit them online or call to set up an estimate and learn more about the types of fencing that they offer and their specific service area.
