

Orthodontist Opens New Office In Chicago

November 21, 2016

November 21, 2016 - PRESSADVANTAGE -

Midwest Orthodontics Center has opened a new office in the Albany Park neighborhood of Chicago, IL. While having only been open for just under a month, the clinic is already building a solid reputation for its excellent and diverse services. Due to the grand opening, they currently also offer free consultation, 0% financing and zero down payment for braces for qualified patients.

Vicky Khawaja from Midwest Orthodontics Center of Albany Park says: "Opening up in Chicago was a huge endeavor and we couldn't be more pleased with how well we have been accepted into the community. We feel that we are really part of the community and look forward to serving Albany Park and Chicago residents for many years to come."

Many of the clinic's orthodontic patients are students, family members, and/or educators at the many schools surrounding the office, including the Edison Regional Gifted Center, Hibbard Elementary, North Park University, and Northeastern Illinois University. Patients come from a variety of locations from Chicago and the suburbs. Locally, the clinic is proud to provide services for patients living in Albany Park, North Park, Lincoln Square, Ravenswood Manor, and Irving Park.

Those who have used the services of the new clinic have been full of praise. "I am very pleased with my

experience here so far," says Karen L. on Yelp. "Dental visits always cause me anxiety. The friendliness and thoroughness of the staff was calming and exceptional. I love that the waiting room is big and comfortable, and there are enough exam rooms to accommodate their patients. Also I felt like there was enough privacy, so I could discuss whatever my issues were with the dentist, without worrying about others listening in. Very satisfied from check in to check out."

The Chicago orthodontist clinic currently offers a free orthodontic consultation to all new patients. This consultation is completely no obligation and simply provides people with the opportunity to get to know the clinic and staff, and be provided with a recommended treatment plan. Additionally, they regularly have other promotions in place to help people receive more affordable orthodontic care.
