Anik Singal, author of The Circle Of Profit, has announced that his book has hit a significant number of reviews on the Amazon marketplace. The second edition of the book recently saw review numbers hit more than 400, most of which are five star testimonials. The first edition of Singal's book, which can be seen at https://www.amazon.com/Anik-Singal/e/B00TLANIRW, was released in February 2015, and to date, more than 100,000 students have read the book.

"Many of my students, after reading the book, have gone on to create their own online business," Singal says. "These are people who have never had an online business before in their lives and they are very successful today."

Singal released the second edition of his book, "The Circle of Profit: How To Turn Your Passion Into $1 Million," early in 2016, and states that this edition has become even more popular than the first. He says that many students have achieved results in their businesses that they have never dreamed to be possible, and that several of them have contacted him to tell him how helpful the book series has become to them.

"We spent a year working with students who have gone on to use my formula to launch their businesses," Singal says. "I knew that I had to get the second edition of my book out there to help even more people in the future."
