

American Survival Magazine Re-releases Guide: 101 Secret Hiding Places

November 11, 2016

November 11, 2016 - PRESSADVANTAGE -

November 11, 2016; Boynton Beach, FL: Survivalist Magazine, the most recognized and respected name in the emergency preparedness industry, eagerly announces the release of a new guide book titled 101 Secret Hiding Places. As part of the company's ongoing efforts to become more environmentally conscious and reduce carbon footprints normally associated with the physical print industry, this education rich resource will be available through the Amazon Kindle store and Createspace company, for immediate purchase and download.

One of the biggest concerns people in the emergency preparedness community have is losing their property, explains Tristan Trubble, field reporter and author of several survival books and guides. They spend countless hours scouring the internet for the goods and gear they determine to be necessary for survival, so it only makes sense to protect those purchases at all costs, by any means available. It is for this reason that 101 Secret Hiding Places has been one of our best-selling guide books; people want to protect their property without worry, and as effectively and efficiently as possible.

Previously published in digital and audio book formats, this educational and informational resource provides

the reader with an abundance of secret hiding places that are unconventional, yet effective methods to keep goods and gear secure and out of sight. The guide details everything the reader needs to know to convert common areas of their homes and yards into covert compartments for stowing gear. 101 Secret Hiding Places also reveals how to hide valuable items in plain sight, all while keeping the untrained eye unaware.

?I have a ton of survival gear hidden in and around my home,? states Trubble. ?We could literally stand in the middle of my backyard, surrounded by all of my hiding places, packed with all of my gear, and nobody in attendance would be able to pinpoint one of my secret spots. I spend a great deal of time away from home. I can ill afford to take everything with me, every time I leave. It was this problem that led me to develop the solutions I have outlined in this guide book.?

Survivalist magazine, one of the most respected leaders in the emergency preparedness and disaster survival industry, strives to maintain daily contact with their fans, followers, and members through a variety of online portals, such as webinars, podcasts, summits, workshops, articles, white papers, emails, DIY projects, survival guides and new blog posts on Steemit.
