

New FB Likes And Post Share Promotion Services Launched for Business Accounts

November 14, 2016

November 14, 2016 - PRESSADVANTAGE -

BuyRealSocialMarketing offers a range of packages designed to help businesses promote their presence on the Web. The packages include fast and drip speeds, as well as the USA or global focus.

Knoxville TN: BuyRealSocialMarketing and owner Dennis Robinson are pleased to announce the launch of their new Post Share and Facebook Likes promotion service. The service is focused on business Facebook accounts. The size of the business can range from a one-person operation to a giant company that is seeking to improve its appearance on the social media platform, Facebook. There are many different ways in which customers can buy Facebook Shares and FB Likes to fit their specific needs, as well as any budget constraints.

Customers can buy Facebook Likes in a range of package sizes. This feature permits the purchase of a small and inexpensive package to get the process of market presence started. As the number of customers increases, additional Shares or Likes can be acquired. The packages that are prepared are always 100 percent real people who can become real customers.

Another way in which the packages can be tailored is in the speed at which they are delivered. Fast delivery gets the results out the fastest, while Drip Feed delivery is a slower and more natural approach. Customers can choose from USA-based Likes or can target a global audience with a Global Package. Both USA and Global focus are available in multiple package sizes, as well as delivery speeds.

The purchase of FB Shares is the USA targeted. Any post on the customer's wall can be shared with a given number of real, active FB accounts from United States users. The purchase is a good way to ensure that a post, picture or video will go viral on Facebook. A viral effect is created, as friends and followers of the original share see the post, as well. The process reflects a powerful Facebook marketing method.

FB is a growing method of enhancing traditional marketing methods. The methods are exciting, effective and new to the industry.
