

## **Make-A-Way Pricing Program Brings SEO To All Businesses**

*November 15, 2016*

November 15, 2016 - PRESSADVANTAGE -

SittmSEO.com a search engine optimization company based in Beaverton, Oregon has released what they have called their "Make-A-Way" SEO pricing program. This unique pricing program allows businesses to realize the full potential and value of high end SEO services while allowing the client to defer the bulk of the associated high costs until after SittmSEO obtains the leads so greatly needed and desired by the individual business.

The Make-A-Way pricing program was created and developed by SittmSEO.com founder Danny Garcia. Mr Garcia remembers the day he first heard about the concept of SEO and how it could help his, at the time, mortgage business.

He was so impressed with what search optimization could do for his struggling small business that he wanted to immediately hire a company to help him get placed on Google's first page. This was until Mr. Garcia was told about the harsh realities of such a service. He quickly learned that not only was the cost of this type of service well above his budget but that the service wouldn't be completed for 10-12 months. Mr. Garcia said he was "heartbroken" and stated, "You might as well been selling me a 30 second commercial during the

superbowl, and although I fully grasped the huge benefit I would receive, I just couldn't afford to get it done."

Soon after this dissapointing time, Mr.Garcia studied all he could about website optimization and now has become an expert in his own right. He has never forgotten how he felt all those years ago and has vowed to make the option of high end, high quality search engine optimization available to any business who truly wants it. His biggest step being the creation of the Make-A-Way pricing program.

The Make-A-Way pricing program provides clients the same high end search optimization services SittmSEO offer to any other client but instead allows the client to pay an amount equal to 10%-20% of the normal pricing. This small percentage is then used by SittmSEO to develop a lead generation website with the sole purpose of generating leads for the clients business. These leads will then be converted into sales and the sales will be used to pay SittmSEO's fees. Once the site is ranked on the first page the client will then begin paying the higher normalized fees using the income derived from the companies initial sales.

This entire program is seen as a win-win situation for both SittmSEO and their client as SittmSEO earns an overall higher fee and the client gets top notch SEO services at a price point that fits into their budget.
