New Store Offers Affordable Essential Travel Gear Delivered Worldwide

November 22, 2016

November 22, 2016 -
Freedom Travel Gear, which is a UK company that provides essential travel gear at affordable prices for consumers, has recently launched their new international travel gear store for freedom seekers and travelers. The company's bestselling new product is their Ultimate Travel Wallet, which they state can easily store a passport, iPhone, credit cards, tickets, notes, USB, cash, pens, and more.

Stephanie Jones with Freedom Travel Gear says, "Our goal is to provide you with the most essential products for your international travels. From our travel wallet to various other products, we're sure to have just what you need for your upcoming trip."

Freedom Travel Gear, which can be seen at www.FreedomTravelGear.com, offers innovative travel gear from the best manufacturers. The company states that their new store is filled with various items that travelers can use to make their trips less stressful.

"We are passionate about travel," says Jones. "We have something for all outdoorsy people from walkers and hikers to fishermen or campers."

The company states that value is an important part of their business, and that they offer deals and only sell customers tested and hand-picked products which will help them greatly on their travels, as opposed to trying to get them to purchase things that are not really essential. Jones says that customer satisfaction is very important to Freedom Traveler Gear and that they would never pressure customers into something that they have no use for.

More about the company can also be seen on their official Facebook page at https://www.facebook.com/Best-Travel-Gear-Of-2016-1368463993169479/?fref=ts, where those interested can learn more about the products that are currently available, including the new travel wallet. Facebook users who like the company's page can also stay updated with new products as they roll out and any specials that the company is offering and connect with other travelers to share information about products and

destinations.

Jones states that the new store offers a good look at all of their available products and that it gives an overview of the company and what they stand for. Those interested can visit Freedom Travel Gear online or see https://vimeo.com/178831667 to learn more.
