

Small Business Tax Services Company Celebrates 50 Years In Business

November 21, 2016

November 21, 2016 - PRESSADVANTAGE -

Padgett Business Services, a leading small business tax, payroll and compliance company, recently celebrated 50 years of providing services. The Gainesville, GA based business not only provides tax-related services, but also assists businesses with management reporting, tax compliance and payroll services. The company, as shown on their website at <http://www.padgettnga.com/>, primarily serves small businesses with fewer than 20 employees, which accounts for about 90% of the country's small businesses.

"Being in business for 50 years is such an amazing accomplishment and I'm honored to be a part of a brand that has stood the test of time for so long," Janet Kaup from Padgett Business Services said.

Walter Padgett launched the company in 1966 after witnessing local business owners struggling with the financial aspects of running their companies. His idea was to help those small businesses thrive. Half a century later, they continue to run on those same principles. With dual U.S. headquarters in Georgia and Massachusetts and a network of more than 300 offices across both the United States and Canada, highlighted on <http://www.padgettnga.com/videos/>, the company is credited with assisting tens of thousands of small businesses with their tax and compliance needs.

"We're doing something very unique in the market: we make tax and compliance routine so that our clients can stay focused on running their businesses," said Steve Rafsky, CEO of Padgett Business Services. "One big reason we've been able to make such a name for ourselves in this market is because of the network of high-quality affiliates who make up Padgett Business Services. Our secret lies in years of building client relationships and teaching our affiliates the best ways to do just that. We're proud to have made it to 50 years and we look optimistically toward the next 50."

The company also recently announced a new Business Growth Program for Professionals that provides tax professionals who operate independent businesses a fully-supported network. This network allows them to retain business, leverage established strategies, maintain and improve client service and remain up-to-date on industry compliance issues. The Business Growth Program for Professionals is currently open to qualified CPAs and enrolled agents who currently own a tax firm in the United States.
