American Survival Magazine Releases New Guide: Survivalist Anthology Volume 4

November 16, 2016

November 16, 2016 - PRESSADVANTAGE -

November 16, 2016; Boynton Beach, FL: Survivalist Magazine, the premier publication of the emergency preparedness industry, and the most recognized member of the prepper community, eagerly announces the release of a new guide titled Survivalist Anthology Volume 4. In keeping with the company's recent announcements to reduce environmental impacts and reduce carbon footprints conventionally associated with the physical print industry, this information packed educational resource is presently available on the Amazon website through the Createspace company.

"This is the 4th and final installment in the Survivalist Anthology series of guides," states George Shepherd, founder and CEO of CDI Publications, parent company for Survivalist Magazine. "We have several new and exciting ideas to follow these anthologies, but we really wanted to get these assembled and published before the holiday season. Several of our members indicated that they would be interested in obtaining these anthologies for friends and family members as stocking stuffers and gifts; we had to work a little overtime to make it happen on schedule, but our members are well worth the additional effort."

Originally published as individual issues of Survivalist Magazine, this data rich resource has been assembled

and made immediately available through Amazon's Createspace company. This provides the customer with the option to order a physical print copy of Survivalist Anthology Volume 4 on demand; allowing customers the choice of consuming content in a manner that works best for them. The editorial staff at Survivalist Magazine combed through each back issue of the magazine to select the most relevant and pertinent information available for inclusion in this anthology.

"If you are new to the emergency preparedness community, or if you happened to miss some of our best-selling back issues, these survival anthologies are for you," states Shepherd. "The information contained in each of these anthologies is just as important and imperative today as it was when we originally printed it. We took the liberty of removing all outdated information and advertisements to bring a binder full of valuable content to your fingertips. Every word included in these publications has earned its place; you won't be disappointed."

Survivalist magazine, one of the most respected leaders in the emergency preparedness and disaster survival industry, strives to maintain daily contact with their fans, followers, and members through a variety of online portals, such as webinars, podcasts, summits, workshops, articles, white papers, emails, DIY projects, survival guides and new blog posts on Steemit.
