

LED Grow Lighting Company Announces Free Shipping

November 22, 2016

November 22, 2016 - PRESSADVANTAGE -

ILLUMINEX, Inc., a business in Denver, CO, a company that sells LED grow lighting products for people who use greenhouses and indoor plant growing, has announced that they now offer free shipping for all products to the lower 48 states of the US. Furthermore, all of their products are stocked in the USA for quick shipping.

Dennis Gronbeck from ILLUMINEX, Inc. says: "Grow lighting has emerged from the 'Dark Ages' of extreme heat and high energy. This kind of lighting has completed its evolution by becoming a common sense grow light solution that provides the plant performance, energy savings, lower heat environment that commercial growers need with the affordability that private households have been hoping for. We are very happy to be able to offer free shipping to all the lower 48 states."

In recent tests, it has been demonstrated that the ILLUMINEX Grow Lights have provided fantastic results for a range of applications. They can be used for a variety of applications, both by domestic and commercial growers. One of the key benefits from these types of lights is that they are so energy efficient. Not only does this mean that growers can help protect the environment, something that most of them are committed to, but it also means that their personal energy bills are significantly reduced.

ILLUMINEX, Inc. is a very respected company with many years of experience in the field of grow lighting. "With over 6 years of dedication to LED high efficiency commercial and industrial lighting we are an expert in LED Lighting," adds Dennis Gronbeck. "We have the experience, knowledge and background to understand what's needed in an application to generate performance based results and our grow lighting gives you just that."

All of the company's products are now available with free shipping to continental USA, regardless of the quantity ordered. The company, as shown in their online shop, <https://illuminexgrowlights.com/led-grow-lights-shop/>, has a range of different LED grow lighting products available to suit a variety of applications. They encourage anyone to contact them should they have any questions about their products, or to place an order for their lights.
