

## **Referz.com Enrolls 500 Top Real Estate Agents in First Month**

*November 17, 2016*

November 17, 2016 - PRESSADVANTAGE -

A new real estate website, Referz.com, connects buyers and sellers with top real estate agents across the country. The new website launched less than one month ago and already has a membership of more than 500 top real estate professionals.

Minneapolis MN: Under the guidance and direction of Referz Real Estate CEO/Founder, Chuck Harris, the real estate agent referral company officially launched its new website and service on November 1, 2016. Within one month of the launch, more than 500 top REALTORS® from around the country have joined the service. Award-winning real estate professionals from multiple cities across the United States, including San Diego, Los Angeles, Phoenix, Minneapolis, St. Louis, Charlotte, Washington D.C. and Denver, have become a part of the Referz network of agents.

The real estate agent membership includes top ranked professionals from the best-known real estate brokers in the country including Keller Williams, RE/MAX, Berkshire Hathaway, Century 21, HomeSmart and Coldwell

Banker. These agents are the best performing agents in their brokerages. Many were hand-picked and have worked with Referz CEO/Founder for several years with his predecessor website, AgentsRanking.com.

Speaking in an interview recently, Referz CEO/Founder explained, "Buying or selling a home is the largest financial decision most people make in their lifetimes. With nearly one million real estate agents in the country, buyers and sellers need a way to find the best, most experienced agents in a fast and efficient manner. People don't have the time, energy, or interest to peruse multiple websites, schedule interviews with numerous agents and spend days or weeks trying to decide which real estate agent to use. We do all the work for buyers and sellers by researching and hand-picking top agents. The real estate agents we recommend are experienced, focused in the specific area where the client wants to buy or sell, and highly reviewed by past clients. The demand for our service continues to grow and so the company is expanding its reach to large metropolitan areas in the United States. Referz will now serve cities including Boston, Atlanta, Chicago, Miami and New York City. This expansion will allow buyers and sellers throughout the country to research, connect with, and hire the best agents in the industry."

The Referz website provides valuable information about real estate agents including their sales experience, past performance, and a sample marketing portfolio. The site also includes realtor reviews so buyers and sellers can read the buzz on member agents. Home buyers and sellers can search for a top agent themselves, or contact the Referz team for a personal recommendation. The Referz team has been researching and recommending top agents for ten years, providing more than 20,000 buyers and sellers with a custom recommendation of the top realtor in their area. When identifying the best agent, the Referz team considers a variety of factors including number of homes sold, knowledge of the specific market the client is looking to buy or sell, and client satisfaction.

More information is available by visiting the website at <https://www.referz.co>.
