

BuyRealSocialMarketing Launches New Real Instagram Follower Promotion Service

November 17, 2016

November 17, 2016 - PRESSADVANTAGE -

BuyRealSocialMarketing offers reliable service to increase Instagram followers. The new followers are real people who will boost market presence.

Knoxville TN: BuyRealSocialMarketing and Dennis Robinson are pleased to announce that they have launched a new social media follower program for Instagram accounts. The service is a reliable source where customers can buy real Instagram followers quickly and easily. The number of followers which can be purchased ranges from 500 to 500,000. The customer can specify US followers or global followers. In either case, the followers are real people, with no fakes and no bots included in the package.

There is no need to provide administrative access to the Instagram account and no password is required for the real followers to begin posting ?Follows? to the account of the customer. Only the account URL is required for the process to begin. BuyRealSocialMarketing is one of the few businesses online where followers can be purchased without giving up account information. Other firms will send real followers, but first need access to the account.

According to a spokesperson for the company, ?A mass follower campaign can be very risky for your account. It lowers the authority of the account since it shows a high ratio of follows to followers. The BuyRealSocialMarketing packages will help to boost your marketing reach and presence on Instagram. The process can be completed in just days.?

Increased real followers on Instagram means more exposure, which in turn equals profits and respect. Some sites on the Web will sell 100K followers for \$10. This can only be done because the followers are not real. They are bots and are likely to result in the fake accounts being wiped. Instagram is refining its reviews of account and labeling those that have a high ratio of bot accounts. That won't happen with BuyRealSocialMarketing, because all of their followers are real, human followers.

With the four years of experience accrued by BuyRealSocialMarketing and their pledge of real followers

rather than bot collections, customers are assured of successful results in increasing market presence. The process is simple and convenient.
