

Best Stretch Mark Cream On Limited Time Offer

November 28, 2016

November 28, 2016 - PRESSADVANTAGE -

HAUTBAUER, a health and beauty company, has announced that they have a promotion for their popular 3+3 Formula Stretch Mark Cream for a limited time only. People can receive a free bottle of cream when they purchase two on Amazon. To gain access to the promotion, consumers need to enter code HAU2FOR1 at checkout. The promotion will end on December 18, 2016, so customers are encouraged to get theirs quickly.

Suzy Holmes of HAUTBAUER, says: "Our stretch mark cream has proven to be incredibly popular and as a way to say thanks to our customers, we have launched a promotion for a free bottle. We have purposefully done this just before the holiday season, so people can purchase multiple bottles at a discounted rate for gift giving. Naturally, they can also treat themselves."

The stretch mark cream may be an effective solution for striae. This is because it includes carefully selected nourishing butters and rejuvenating oils that help deliver rapid results. The product does not contain parabens and other potentially harmful ingredients. Rather, HAUTBAUER has created a naturopathic formula that can be used by anyone, including pregnant mothers, without causing any damage to health.

The cream does not feel oily or greasy, and is easily absorbed by the skin. When applied, it leaves a warm sensation and has a subtle, refreshing orange peel scent. This makes the daily routine of applying the cream

a very pleasant one. This is something many customers have discussed in their positive reviews. "I use it for my current stretch marks that I got from pregnancy. I love the light scent and the ingredients make it obvious it's good for your skin...," says Jasmine on Amazon.

HAUTBAUER encourages anyone who has developed stretchmarks, or who is at risk of developing them, to try the product. "Confidently wear your favorite two-piece swimsuit again, while getting those flattering compliments from your partner and your skin feeling softer than ever before," adds Suzy Holmes.

The company is so convinced that their product is effective that they also include a 60 day money back guarantee.
