

GrowUpSmart Game Attains Best Chess Sets Ranking On Amazon

December 02, 2016

December 02, 2016 - PRESSADVANTAGE -

GrowUpSmart, an educational toys and games company, has announced that their chess game has reached a new level of popularity on the Amazon marketplace. The company recently stated that their Smart Tactics Chess Set has received great reviews from consumers on the marketplace, who have listed it as one of the best chess sets available. The set has received reviews that gave it either a four or a five star ranking with five stars much more frequent so that it is currently listed as very close to the perfect five star product level.

Martin Reinhold with GrowUpSmart says, "As a company, we know that our product is great but convincing others of its greatness is often difficult. We believe that the Smart Tactics Chess Set is an amazing product, but never imagined that it would become so popular so quickly."

Reinhold states that the reviews for the set continue to come in and that none of them have been below the four star level at this point. Multiple customers have provided reviews on the Amazon marketplace praising the company and the game, many going so far as to refer to it as the best chess set they have ever purchased. The set, along with its many reviews, can be seen at <http://www.amazon.com/Wooden-Chess-Set/dp/B0198737KU>.

The Smart Tactics Chess Set includes a 16 inch board with velvet lined compartments for the chess pieces. The board folds away easily and includes algebraic notations along the top edge that provide identification of game moves. The chess board is crafted of FSC certified New Zealand pine wood and includes a basswood and walnut veneer top. The set also includes access to an online beginning chess player's video course as well as an instruction manual for beginners. It has been tested to USA Toy Safety Standards to ensure that it is safe for use by children.

"These extras are what made it such a great choice for me," says one Amazon customer. "The fact that it meets regulations for safety and that it is crafted from FSC certified wood are what prompted me to buy, aside from the fact that it comes with everything you need to play as a beginner."

Those interested can learn more about the chess set and read through positive customer reviews on the Amazon marketplace.
