

American Survival Magazine Releases New Book: How to Create a New Identity & Disappear

November 22, 2016

November 22, 2016 - PRESSADVANTAGE -

November 22, 2016; Boynton Beach, FL: Survivalist Magazine, the premier publication and most recognized name in the emergency preparedness community, proudly announces the release of a new guide book by renowned author Tristan Trubble titled *How to Create a New Identity & Disappear*. As part of the company's ongoing efforts to reduce carbon footprints traditionally associated with the physical print industry, and to remain more environmentally conscious, this education rich resource is currently available on the Amazon Kindle store for immediate purchase and download. Customers may also order a physical print copy on demand through Amazon's Createspace company.

"In the past, we have had several members request information on changing their identity," states George Shepherd, founder and CEO of Survivalist Magazine and its parent company CDI Publications. "Today, with technology at our fingertips, it has become increasingly difficult for people to disappear when they need to. There are many legitimate reasons a person might want to create a new identity and disappear, such as victims of domestic abuse. We considered the various reasons provided to us by members who requested this information prior to taking on the project, and decided that there was enough need to publish the book once completed."

Previously published with flip book style formatting and offered digitally, this information and education resource is now available through Amazon Createspace, allowing customers to order a physical print copy on demand and consume the information in the style that serves them best. Author Tristan Trubble has assembled the content for How to Create a New Identity & Disappear, and presented it in an easily understood and simple to follow format, guiding the reader from one chapter to the next. Readers will discover the intricacies of building a backyard greenhouse, as well as topics that deserve serious consideration, such as care and maintenance.

“The information contained in this book is intended to assist those with a legitimate reason for altering their identity,” states Shepherd. “We tried to provide as much relevant data and resources as possible. Readers will discover that this is not an easy, overnight activity to tackle. It will take some time, patience, attention to detail, and individual research before the new identity can be created and crafted to look legitimate enough to disappear.”

Survivalist magazine, one of the most respected leaders in the emergency preparedness and disaster survival industry, strives to maintain daily contact with their fans, followers, and members through a variety of online portals, such as webinars, podcasts, summits, workshops, articles, white papers, emails, DIY projects, survival guides and new blog posts on Steemit.
