

Valley Auto Care Announces Viezu Tuning And ECU Remapping Services

December 17, 2016

December 17, 2016 - PRESSADVANTAGE -

Apple Valley, Minnesota based Valley Auto Care has announced that they are now using Viezu tuning with absolute confidence. The company has been serving the area for more than 25 years, offering a variety of car, truck, and SUV repair services.

"All of our technicians are highly skilled and experienced," says Scott Brouwer with Valley Auto Care. "We use only top of the line equipment to ensure that our customers get back on the road as quickly as possible."

Brouwer states that the company serves a range of customers including passionate German car enthusiasts as well as those who simply view their vehicles as a means of getting from point A to point B. He says, "No matter what your vehicle is, we'll provide you with world class service."

Viezu offers cutting edge vehicle tuning and ECU remapping, developed with more than 20 years of experience. Car tuning, ECU remapping and chip tuning products from Viezu have all been tested on vehicles in real life situations to ensure complete satisfaction.

Viezu tuning software is recommended and used by the largest customer groups and fleet operators in the world. Brouwer states that many car owners know and trust the name of Viezu, which is one reason that Valley Auto Care has taken steps to ensure that all technicians are trained and skilled on their equipment.

Viezu has an onsite technical research center where they develop car tuning and remapping software, including their well-known and popular Blue Optimize fuel economy and carbon reduction chip tuning software. Viezu Technologies recently won the coveted Queens Award for Innovation.

Valley Auto Care states that they have perfected the art of using this software, and provide quality services to their customers because of it. The company services customers in areas surrounding Apple Valley such as Burnsville, Eagan, Farmington, Rosemount and Lakeville and specialize in German, Japanese, and American made cars and trucks. Staff includes a range of ASE Certified technicians who perform a number of auto maintenance and repair tasks.

Those interested in learning more about Valley Auto Care or their Viezu Technologies based services can visit them on their official website at valleyautocare.com.
