November 28, 2016 - PRESSADVANTAGE -

Green Bay Carpet Cleaning receives notice as the best business of its type throughout the Green Bay area. The company offers full cleaning services to homeowners, business owners, renters and property managers.

Green Bay WI: Green Bay Carpet Cleaning and Brent Diedrick are pleased to report that the firm has been reviewed by WPSD Local 6 News as the best carpet cleaning company throughout the Green Bay area. The reasons for the high ranking are attributed to the full services available from the professionals. The steam cleaning method is the basis of the procedures for carpets, rugs and upholstery.

According to a company spokesperson, "We offer services to property managers and owners, as well as renters and homeowners throughout Brown County and surrounding area. The trained and experienced technicians are some of the best pros in the industry. Our equipment is state-of-the-art and our methods are highly efficient. Our marketing strategy relies on quality services and positive word-of-mouth response."

Free quotes are available to any prospective client. The affordable prices offered by the company help to ensure a longer life for the floor covering in the home or business. When carpeting wears longer, the price per unit of time goes down. Keeping carpets in tip-top condition helps to extend their useful life in an attractive way. The company offers its services to both commercial and residential customers.

Clean carpets in the home or workplace reduce the potential for respiratory ailments due to hidden dirt and allergens. Potential health hazards are efficiently removed using the professional steam cleaning methods. Even the most picky homeowner is unable to prevent the accumulation of dirt and organisms in the fibers of the rugs, carpeting and upholstered furniture.

Clients may arrange for a free consultation and price quote by going online. A response from a friendly and knowledgeable customer service representative will answer questions and respond to requests or concerns. The cleaning technicians will provide expert care of carpets, rugs and upholstery to ensure that they are returned to pristine condition with a minimum of disruption to the home or business owner.
