Backgammon Set Found To Be Popular For Both Kids And Adults

December 12, 2016

December 12, 2016 -
GrowUpSmart, an educational toys and games company, has recently announced that their leather backgammon set has become more popular than they initially believed. The company states that based on sales from their Amazon marketplace seller's page, the backgammon set has become a popular item for both adults and children.

"Backgammon is regaining popularity due to its ability to teach players about math, probability and strategy," says Martin Reinhold with GrowUpSmart. "And backgammon is great fun to play."

The set, which can be seen at https://www.amazon.com/Leather-Backgammon-Set-Board-Game/dp/B01HETP874, helps teach children tactics and strategies according to the company. "It's a classic game that's been around for centuries," says Reinhold. "It's an ideal set for beginners as well as advanced players, and really does help to teach children valuable skills that they will carry with them for life."

Reinhold states that the company markets games as educational products for children, and says that while

they expected the games to be somewhat enticing to adults, they had no idea that adults would receive them so well. The backgammon game to date has sold many copies and has reviews from adult players as well as parents who state that their children have learned to love the game.

The Smart Tactics backgammon board is made of wood and coated with a PU leather exterior. The suitcase shaped travel pack holds the board and contains storage trays for the pieces. It also has a convenient carrying handle, which Reinhold states comes in very handy for younger children. The game set includes everything needed to play the game as well as a learner's instruction manual and access to online videos that teach the basics of backgammon.

Reinhold states that the game set is fully tested to comply with USA Toy Safety Standards, so it is perfectly safe for children as well as adults. The company says that sales of the game set have increased, likely in light of the upcoming holiday season, and that many adults and children can expect to see the game under their tree this Christmas according to sales.

Those interested can learn more about the backgammon game set at http://growupsmart.com/smart-tactics-backgammon-set/ or about other game boards at the company website.
