

Oasis Ahead Lawn Sprinkler Now Available On German Market

December 02, 2016

December 02, 2016 - PRESSADVANTAGE -

The Oasis Ahead K-200 Lawn Sprinkler has long been proven to be a popular item in the US, and gardening care company has recently made the sprinkler available to the United Kingdom market. Now, in response to numerous requests on their domestic Amazon page at <http://www.amazon.com/Oasis-Ahead-Lawn-Sprinkler/dp/B01G72GVUW>, they are proud to announce that they have now also launched it on the German market.

Oasis Ahead's Martin Holst says: "When we decided to sell our sprinkler on the UK market, the goal was to see how it would be received and go from there. What we didn't expect was that so many people would immediately start asking for it in different countries as well. Luckily, the process of stepping from the UK to the German market has been reasonably straightforward, so we're now able to offer the lawn sprinkler in Germany as well."

The lawn sprinkler is popular for a range of reasons. The first is that it offers a wide coverage area, which is one of the reasons why it is so popular in Germany, where gardens are often large in size. Secondly, it offers 0 to 360 degree coverage, thereby ensuring that a single sprinkler can cover a substantial part of a garden.

Other benefits have also been noted by a range of customers. "Love this sprinkler. All adjustments easy to make to put the exact amount of water where you want it. Weighted base for stability and turnoff switch on the sprinkler are big benefits..." says Charlotte D. on Amazon.

What people appreciate the most is that the sprinkler comes with an easy to operate auto shut off valve. This means that the sprinkler can be operated on its base, which eliminates the need for people to walk to and from the faucet just to turn the water on or off. Furthermore, the shut off valve is very easy to operate, which means even those with dexterity issues, such as people with arthritis, are still able to operate it.

The sprinkler is currently available on the domestic, United Kingdom, and German markets, all of which can be accessed through the company's own website at <http://oasisahead.com/k200-sprinkler/>.
