Oasis Ahead Sprinkler Voted Best Lawn Sprinkler In Community Poll

December 14, 2016

December 14, 2016 -
After shopping extravaganzas like Black Friday and Small Business Saturday, various community polls have been conducted in order to determine which products have been particularly popular. Oasis Ahead, a gardening equipment company, is proud to announce that, in the category of home and garden, their lawn sprinkler has been voted best in class. The sprinkler is available at http://www.amazon.com/Oasis-Ahead-Lawn-Sprinkler/dp/B01G72GVUW, where it has also received a surge of positive reviews.

Martin Reinhold, founder of Oasis Ahead, says: "We are so happy to see that our costumers are enjoying our product, and we are so honored to have been voted best in class. We had a number of promotions over Black Friday that were very successful, but for our product to be voted best lawn sprinkler that soon after was more than even we could have expected. A genuine, heartfelt thank you for the trust the community has put in us."

In the community poll, people commented on a number of features of the sprinklers that they appreciated. These included the fact that the sprinkler can be used for many different watering activities, including lawns,

water splashing activities, flower beds, and more. However, what really made the sprinkler set distinct was its huge watering range, from zero to 360 degrees, and the detachable shut-off valve, that allows even people with arthritis to operate the sprinkler.

"One of the things we aimed to do was to make people's lives easier," adds Martin Reinhold. "Our shut off valve means that the water can be switched on or off at the sprinkler rather than at the tap. This means there is much less walking to do as well. Furthermore, it only requires the slightest twist to turn it on or off. This means people with dexterity issues such as arthritis can still use it. We know how enjoyable and healthy gardening is, and even if just one person is able to return to gardening thanks to our sprinkler, we feel we will have made a real difference."

The sprinkler is available on Amazon as well as on the company's website at http://oasisahead.com/k200-sprinkler/.
