

Orlando FL Plumbing firm Celebrates 68 Years In Business

November 28, 2016

November 28, 2016 - PRESSADVANTAGE -

Brownies Plumbing and Septic offers plumbing, drain cleaning and grease trap cleaning in the Orlando area since 1948. The family owned and operated firm is fully licensed, bonded and insured.

Orlando FL: Brownies Plumbing and Septic (<http://brownieswws.com/>) and owner Corey Wiley are pleased to announce that they have been a well-respected part of the Orlando business community for nearly seven decades. The business was launched in 1948 and has remained as a family owned and operated business over the years. They hold membership status in the Better Business Bureau, Florida Restaurant Association and Florida Onsite Wastewater Association. The company is bonded and insured so that customers are assured of peace-of-mind.

In a recent interview, a spokesperson for the firm explained, "Brownie's Septic and Plumbing is dedicated to providing the best possible service to all of our customers, 24 hours a day, seven days a week. We utilize the latest equipment and fully comply with all state, local, and federal guidelines pertaining to business practices, permitting, licensing, and waste handling and disposal. Brownie's has professional, experienced technicians available around the clock for any possible emergency or plumbing concern."

Cleaning grease traps for commercial establishments is often done by individuals who do not have the expertise to properly care for the equipment. As a result, grease traps can smell, clog up and overflow. It is recommended that a thorough cleaning of this equipment be done every four to six weeks, depending upon the amount of usage.

The Brownie's Grease Trap trained technicians (<http://brownieswws.com/grease-trap-cleaning-orlando/>) understand the steps which must be taken to remove the grease, waste oil and food particles from the traps, and also to scrape the walls and use bio-safe products which break down incoming grease.

Drain and water jet cleaning and service is another area of service from Brownies (<http://brownieswws.com/orlando-drain-cleaning-hydro-jetting-orlando-water-jetting-orlando/>). Both

commercial and residential drain cleaning services are handled quickly, skillfully and affordably.
