

Houston Land Clearing Firm Marks Seven Years In Business

November 28, 2016

November 28, 2016 - PRESSADVANTAGE -

Affordable Land Services offers a range of Houston area services to land-owners and contractors. The company was launched in 2009, to provide for customers' needs in the areas of excavation and land improvement.

Houston TX: Affordable Land Services LLC and owner, Jake Pennington are pleased to announce that they have celebrated seven years of successful operation in the Houston, Texas area. Their services include land clearing, select fills, retention ponds and pond liners, as well as other tasks involving land manipulation. The company is an area civil site contractor with extensive experience in commercial, oil and gas, single family and multi-family units, educational and industrial markets.

According to owner Jake Pennington, speaking in a recent interview, "Our clients include area developers, engineers, realtors, home builders, general contractors, and businesses in the industrial and petro-chemical sector. The scope of our work includes land clearing, excavation, drainage, site preparation, soil stabilization,

underground utilities, demolition, and concrete paving.?

?ALS is quickly emerging as one of the top site work companies in Southeast Texas, thanks to our dedicated personnel and rapidly growing customer base,? he continues. ?We have forged critical and lasting relationships with developers, engineers, and general contractors in the Houston area who are pleased at our ability to meet any challenge. The reputation we have earned for our honesty, hard work, accountability and site work knowledge did not happen by accident.?

Affordable Land Services (www.alsincorporated.com) has been based out of Devers, Texas since it was established in March of 2009. The company has become a leader in the Houston commercial and industrial construction industry under Jake's leadership. Every aspect of the business is overseen by Pennington, including management of resources, contract execution, project estimates and customer relations. The firm is able to handle execution of any size job, by employing the top operators supervisors and foremen in the civil construction market.

ALS is a firm with experienced and dedicated personnel who take pride in their attention to details. The company is committed to finishing each project on time and on budget, while delivering a high quality product.
