STDTestingFacilities.com offers 100 percent confidential testing to clients in more than 4000 centers across the United States. The test is done in five minutes and results are available in one to two days.

STDTestingFacilities.com is pleased to announce that it has more than 4000 STD testing clinics where accurate and confidential STD testing can be completed in a matter of minutes. The results are available in two days or less. All tests are FDA-approved. A \$10 discount is offered at present. The tests are conducted in the same testing centers which are used by doctors and hospitals. Orders are placed online and the customer can then visit any of the centers. No appointments are needed. The tests are delivered only to the person placing the order.

According to a spokesperson for the company, "Your results are delivered to you and no one else - nothing is reported to your insurance or placed on your medical records. More importantly, we provide guidance and support every step of the way, no matter what your results are. You can help to stop the spread of STDs by knowing your status."

The results are not reported to insurance companies, and therefore are not placed in permanent medical records. Testing takes only a few minutes, with no questions asked and no paperwork required. Only a urine or blood sample is required. The centers offer the most comprehensive tests available. The 10-Test Panel tests for all major STDs, including HIV 1 & 2, syphilis, gonorrhea, chlamydia, hepatitis A, hepatitis B & hepatitis C, and herpes 1 & 2.

If the tests come back positive, customers can speak with one of the doctors, who can prescribe treatment or provide a referral to a specialist. The centers provide results within 1-2 days and status updates are available anytime by phone. Care Advisors are available to answer questions at any time. The tests are FDA-approved and the testing centers are CLIA-certified. Prices are affordable. The customer care personnel are professional, courteous and knowledgeable.
