Frozen Yogurt Near Me is an online directory for stores which offer frozen yogurt products. The directory is the largest of its kind and contains more than 1000 listings.

Frozenyogurtnear.me is pleased to announce the release of its list of the top five franchises which offer yogurt in frozen form. The website is an online directory for stores which offer the frozen form of yogurt and is the largest directory of its kind. The website offers assistance in finding a nearby location for a yogurt store. More than one thousand outlets for the product are included in the listings at the website.

In addition to locations for frozen yogurt stores, the website also offers details on hours of operation, customer reviews, discounts and coupon information, and contact information, as well as additional explanations and facts about the products. By checking out the social media location on Facebook, individuals who like the products can stay in touch and get exclusive coupons and deals for the preferred stores, flavors and brands.

The top five frozen yogurt franchises which are described on the website include Menchies, TCBY, Yogurtland, SweetFrog and RedMango. The number of locations among these five top franchises is listed, ranging from two to three hundred outlets to hundreds. Information about the number and type of products and toppings is included in a brief review of each of the popular chains. Other notes about the various stores is included in the descriptions, as well. One example is the availability of non-fat, low-carb, no-sugar, and gluten-free frozen products.

A history of the brand is included in some of the descriptions about outlets. The intuitive website is easy to use, since most potential customers will be interested in a geographical location for the search, distance in miles from a specific location is the default search position. Directory users can also set filters to show ratings from five stars to one star. For those interested in additional facts, the website includes details about the history of the product.
