

ProjectYourGaming Launches Gaming Projectors And Screens Website

November 29, 2016

November 29, 2016 - PRESSADVANTAGE -

ProjectYourGaming.com offers a comprehensive review site dedicated to the best in screens and gaming projectors. The reviews cover projectors which are specifically designed for gaming needs.

Project Your Gaming is pleased to announce the release of their pick list of the top gaming projector options available in the market place today. Each of the selections is available at Amazon.com and carries the standard Amazon.com shipping terms and guarantees. Finding the best projector for gaming needs doesn't have to take hours of research and study time. Using the buyer's guide established by PYG can ensure that the selection of a projector will fit the needs of the gamer and the available space.

According to a spokesperson for the website, "If you are in the market for a great projector for gaming, our buyer's guide and reviews are designed to take the hard work out of selecting the best gaming projectors and screens especially for gaming. Our selections are each hand-picked to deliver the best in graphics and performance when used to play video games. These models are not the ones meant for watching movies or presentations. They are designed to bring the best experience when using a PS4, Xbox One or playing PC games."

Before selecting a projector for gaming there are several decisions to be made. These decisions include the type of use that will be made of the equipment. This initial decision influences the resolutions which are needed, the relationship alternatives and the light level in the viewing chamber. Also, the decision about where the projector will be placed is crucial.

The selection of gaming projectors which are reviewed by PYG include the Optoma HD28DSE 1080p 3D DLP Home Theater Projector; ViewSonic PJD7720HD LightStream 1080p 3D Projector; Optoma GT760 720p 3D DLP Gaming Projector; BenQ W1070 1080p 3D DLP Home Theater Projector; Epson Home Cinema 1040 Gaming Projector; BenQ HT2050 1080p 3D DLP Gaming Projector; Optoma HD141X 1080p 3D DLP Home Theater/Gaming Projector; and Optoma GT1080 1080p 3D DLP Gaming Projector. Prices on the selected brands and models range from just under \$500 to a high of nearly \$800.
