

Durham Carpet Cleaning Firm Launches Website And Blog

November 30, 2016

November 30, 2016 - PRESSADVANTAGE -

Carpet Cleaning Services Durham offers premier carpet and upholstery services to area residents. The company recently posted a blog on the topic of choosing carpet or hardwood.

Durham NC: Carpet Cleaning Services Durham is pleased to announce the release of its latest blog on the comparison between hardwood and carpet. The team of professionals offer the best carpet cleaning in town. Durham's Carpet Cleaning also provides carpet repair and stain removal from carpets, rugs, mats, tapestry and everything related to carpets. The company is the only one in the Triangle that offers rug cleaning services for Oriental carpets. The blog post compares the descriptions and care of carpeting and hardwood in an informative and concise manner.

According to the article, some of the considerations which enter into the choice of floor coverings include the current product in the structure, the marketability of the house, regional preferences for certain rooms, and the cost of the installation. The coverage of the topic is fair and balanced, with space given for personal preference, as well as for a mixed alternative.

The services of the company include both commercial and residential carpets and rugs. The professionals can use steam cleaning or dry cleaning methods depending upon the type of carpet or upholstery, the extent and type of dirt and stains and the need for ecologically friendly products and cleaning methods.

The website is a storehouse of helpful facts about carpets, and the need for keeping them clean. Inhabitants of the household can be subjected to all types of unhealthy organisms and particles when the carpet is dirty. Even a carpet that looks clean can be host to things like skin cells, bed bugs, firebrat and pet dander and feces. For inhabitants of the house who suffer from respiratory ailments, regular professional cleaning is a must.

Tips for DIY efforts to minimize the effects of dirt and stains between regular professional cleanings are included in the website database. Carpets represent a significant investment and regular cleanings help to

extend the life of the asset.
