

Homes Direct 365 Announces In-House Manufactured Shabby Chic & French Furniture

December 26, 2016

December 26, 2016 - PRESSADVANTAGE -

Middlesbrough, UK based Homes Direct 365 has recently announced that they are now manufacturing most of their furniture in-house. The company provides a wide range of furniture collections, many of which they state are now being created by them at their facility.

"From our shabby chic and French pieces to our mirrored furniture, we've got something for everyone," says Jon Gregory with the company. "We ensure high quality in all of our furniture collections by manufacturing them ourselves, so there are no worries of shoddy materials or unappealing styles."

The company states that they offer the La Rochelle, Estelle, Bordeaux Ivory, Rococo, Baroque Gold Leaf, Baroque Silver, Romano Mirrored, Rimini Mirrored, and the Florence Mirrored Furniture collections all made in-house. In addition, they offer a zero percent financing option for many customers.

"You really have to see our pieces to appreciate the fine craftsmanship," says Gregory. "We believe that your home should be a reflection of you, so our in-house team creates pieces that we feel will match most personalities and personal preferences, ensuring that there is a furniture collection for everyone."

Those interested can view some of the collections on the company's website at <https://www.homesdirect365.co.uk/french-furniture-c487/shabby-chic-furniture-c2128>. Gregory states that in addition to their manufacturing craftsmen and financing options, they have a staff of trained and experienced salespeople to help customers to find and purchase the perfect furniture pieces for their homes. The company's online store offers a glimpse into most of their collection pieces and gives more information about their financing options.

Gregory states that because they are an online store, there are fewer overhead costs so they offer more affordable pieces than many consumers imagine. Their collections feature pieces for the bathroom, bedroom, dining room, and various other areas of the home. The company states that whether customers are dining or sleeping, they want their furniture to reflect their passion and personal style, and their pieces are designed to offer style as well as quality.

Customers who are interested in viewing the online showroom can do so at the Homes Direct 365 official website at <https://www.homesdirect365.co.uk/french-furniture-c487>.
