

Soldier And Yoga Teacher Find Yogi Master To Be Best Yoga Mat

December 09, 2016

December 09, 2016 - PRESSADVANTAGE -

Los Angeles, California, based fitness products company, Yogi Master, has recently announced a review received for their yoga mat. The company states that the review comes from a soldier in the Middle East who spoke about how much he likes the mat, and how much his yoga teacher likes it.

"His yoga teacher in the Middle East is a woman called Rose," says Gisele Almeida with Yogi Master. "She found my mat and has been recommending to others."

The soldier who wrote the stellar review is Joe Gilbert or MA3 (AW) Gilbert as he's known in the Army. In his review, Gilbert states, "I was extremely pleased with this yoga mat. I'm deployed to the Middle East and the conditions for yoga are less than ideal. My biggest issues with other mats are that I could feel everything, even the smallest stones through the mat and I was constantly making squeaking noises from sliding. This mat saves my knees and elbows, is extremely comfortable, durable and slip-free. I've had this mat about 5 months and it has held up tremendously."

The company states that they have always strived to provide the best customer service they can provide to

those shopping online. They added that they do not provide a generic Amazon response, but an actual response from staff. They provide customers with tips and care instructions for the mat, and that they always try to respond within 24 hours to any inquiries.

The mat, which can be seen on the Amazon marketplace at https://www.amazon.com/Yogi-Master-Eco-Friendly-Non-Slip-Carrying/product-reviews/B01CDPTPHS/ref=cm_cr_arp_d_paging_btm_2?ie=UTF8&reviewerType=avp_only_reviews&showViewpoints=1&sortBy=recent&pageNumber=2, is designed to provide extra comfort for the knees and elbows with thicker padding than traditional mats. The patented surface is double sided and non-slip to provide more stability. All mats produced by Yogi Master are made with environmentally friendly materials so that they are recyclable, nontoxic, biodegradable, and odorless to provide a healthier option for those doing yoga. The mat, according to the company, is free of latex, silicone, dioxins, toxic chemicals, and other harmful materials.

More on the mat and the company, as well as other reviews from their satisfied customers, can be seen on their official website at www.yogi-master.com.
