December 06, 2016 - PRESSADVANTAGE -

Area Rug Cleaners Brooklyn offers premier, discounted carpet cleaning and area rug cleaning services since its start-up in 1980. The process dries quickly and deep cleans better than other cleaning systems.

Brooklyn NY: Area Rug Cleaners Brooklyn professionals is pleased to announce that they hold more than 36 years of experience in the industry. The process they use for cleaning is fast-drying and able to remove the serious stains and grime quickly and effectively. The organic cleaners and processes are effective and healthy for pets and humans alike. They are environmentally friendly and the cleaning they offer is more effective in their cleaning ability than the unsafe chemicals used in years past. Modern carpet manufacturers and expert cleaning firms recommend the methods and products such as those used by the Area Rug Cleaners Brooklyn firm.

High-quality area rugs add aesthetic appeal to a home or business. They also add subtle touches of color and help to delineate areas with different functions. For the best result in maintaining the appearance and taking care of rug cleaning Brooklyn, residents can take advantage of the quality products and methods offered by the experienced firm. Professional cleaning methods and products are most likely to extend the life of the rug.

According to a spokesperson for the firm, "While we recommend twice yearly cleaning for your carpets and area rugs, you can help to maintain the looks of your floor coverings by following the tips we have provided on our website."

Keeping dirt from the rugs as much as possible is the first step. Use floor mats at entrances. The right size and type of doormat will help to keep dirt from being tracked into the house. A mat that is acrylic with a rubber backing will prevent slipping. As much as possible, shoes should be left off before walking across the carpet. Regular vacuuming helps to keep dirt particles from working their way into the backing of the carpet. Weekly beatings of area rugs will help to eliminate a lot of dirt. Finally, clean up any stains, using approved methods, as quickly as possible following the spill.
