

# Quebec Cleaning Firm Now Covers Brossard Area

*December 07, 2016*

December 07, 2016 - PRESSADVANTAGE -

ProPlus-Ménage offers residential and commercial cleaning services to customers in the North Shore, Laval, South Shore and Greater Montreal area. The company only recruits honest franchisees attentive to customers' needs.

ProPlus-Ménage is a cleaning company that has announced its services throughout the Greater Montreal area, including Brossard, South Shore, and the North Shore. Both residential and commercial cleaning is offered by the professional team. The team is devoted to building and maintaining lasting relationships and trust with customers through the provision of complete satisfaction with the quality of service. The firm builds its service through the recruitment of honest franchisees who are responsive to customers' needs.

A professional maid in Brossard (femme de ménage Brossard) or team is focused on the client's satisfaction. A 100 percent guarantee of satisfaction is assured. The same high level of training is provided to franchisees and cleaning members. The franchisees receive training to assess the needs of each particular case. This knowledge permits choosing the exact cleaning products to obtain the best results. This commitment ensures that customers receive the best cleaning services. The customer who is not satisfied will receive a do-over without charge.

The Brossard cleaning company (compagnie de ménage Brossard) firm provides environmentally friendly cleaning services. The ecological cleaning products do not erode or damage the equipment or furnishings of the customers. The approach of ProPlus-Ménage ensures the best results with no impact on the health of the customers, environment and staff members.

The employees and franchisees have the knowledge and experience to handle home cleaning as well as commercial cleaning. A range of cleaning services is available from the company. Customers can obtain general cleaning, seasonal cleaning or major clean-up tasks. The efforts of the cleaning team will free customers from the messy and hard work of do-it-yourself cleaning projects.

When it comes to commercial cleaning, the company recognizes that each client has different needs. The

team listens to requirements and will treat each request with the utmost care. Whether it is a one-time effort or an ongoing maintenance cleaning effort, the company works to see that customer satisfaction is assured.
