December 16, 2016 - PRESSADVANTAGE -

A recent community pool looked into which Amazon items were particularly popular additions to people's holiday gift lists. Cheyenne, WY based jewelry designer Baubelle is proud to have found their Be Kind bracelet was usually included on those lists. The bracelet is part of their wider "Be" collection, many of which were also added to the lists.

"We released a wide range of new bracelets as part of our collection in an effort to enable people to find holiday gifts with a difference," says Sarah Evren from Baubelle. "We're so happy to see that we have been able to achieve that, and that our Be Kind bracelet scored so high on this list."

The Be Kind bracelet is a stackable, adjustable fashion bracelet plated with 18k gold, white gold, or rose gold. Because of the quality of the plating, it does not tarnish nor rust. Additionally, it is a hypoallergenic material, which means it is perfectly suited to those with sensitive skin or metal allergies, as it will not cause irritation, itching, or skin discoloration.

While one of the company's latest additions to the overall "Be" line, it has already proven to be quite popular,

with many people adding it to their holiday gift list for special women. The messages on the bracelets, such as Be Kind, are inspirational and serve as a reminder of women's kindness. "What a beautiful bracelet with an inspirational meaning behind it. I got two of the "be" bracelets for me and my mom to match in the rose gold color and she absolutely loved everything about it," says an Amazon customer.

Baubelle stands for the quality of their products. This is why any purchases that are made through their Amazon.com store are covered by a 100% money back guarantee, no questions asked, valid for one year. This guarantee is extended not just to the purchaser of the bracelets, but also to the recipient if it is purchased as a gift. Sarah Evren adds: "All of our bracelets are made to last, so we feel confident offering a one year guarantee to all of our customers."
