December 28, 2016 - PRESSADVANTAGE -

A Cheyenne, WY jewelry company is proud to announce that their entire Be bracelets collection is now available on the Amazon marketplace. This comes just in time for the upcoming New Year, with many of their products being used to inspire the wearer in 2017. Each bracelet includes an inspirational quote, so that people who wear it can be reminded of the good things in life.

Sarah Evren, lead designer at the company, says: "Our bracelets have been designed with women in mind, serving as a reminder of their strength and resilience. We are very happy that our entire collection is now available on Amazon, so that nobody has to miss out on the chance to give 2017 a motivational kick-start."

One of the most popular line of products of Baubelle is found in the Be Bracelets. These include Be Thankful, Be Brave, Be Happy, Be Kind, Be True, and Be Strong. Each of these bracelets is presented in Baubelle's signature turquoise and gold gift box, which means it does not even have to be gift wrapped or can be used as a jewelry box to safekeep the bracelet. The bracelets are all 18k gold, white gold, or rose gold plated. Furthermore, the fine jewelry quality comes at a very affordable price tag, in an effort to make it accessible to

everyone.

"Our bracelets are all designed to be inspirational, and everybody needs some inspiration every once in a while," adds Sarah Evren. "Hence, we wanted to make sure that anyone could purchase our bracelets even if they are on a limited budget, but without compromising on quality."

Because the Be bracelets are all 18K gold plated, they will not rust nor tarnish. Furthermore, they are hypoallergenic, which means they can be worn by people with sensitive skin or with metal allergies alike, without causing irritation, itching, or skin discoloration. Additionally, they have ensured that their bracelets are stackable, which means they can be worn together for added beauty, something that many customers have particularly appreciated. "This is another Baubelle bracelet that I bought for my daughter. I purchased them both at the same time because she said she likes to 'stack her bracelets' and the two tones allow her to use multiple colors when she wears them," says Wayne K. on Amazon.com.
