

BWS Heating & Air Conditioning Now Offering \$100 Off BreatheCLEAN UV Light

May 27, 2015

May 27, 2015 - PRESSADVANTAGE -

Heating and air conditioning contractor, BWS Heating & Air Conditioning, occupying an office space in Carlson Business Center, is now offering \$100 off BreatheCLEAN UV Light purifiers through May. BreatheCLEAN UV Light is a home air purifier which utilizes pure ultraviolet light to kill airborne micro-organisms such as germs, bacteria and mold.

BWS provides fast, efficient and economical HVAC service. BWS performs installation on: heating, air conditioning, hot water systems, steam systems, boilers / burners, plumbing, RPZ Testing, electrical, ventilation and energy services. They also offer emergency overtime service at regular rates 24/7.

BreatheCLEAN UV Light easily attaches to the home's central ventilation system and continually cleans the air as the air is circulating. This product helps prevent allergies, asthma and sinus symptoms. BreatheCLEAN's ultraviolet light ray breaks through the cell wall of the organism and destroys the DNA. This renders the organism unable to reproduce and cause illness. For example, when someone has a virus or a cold and coughs or sneezes in one room; those germs are spread to every room in the house, through the ventilation system, within 30 minutes. With a BreatheCLEAN purifier attached to the ventilation system, those germs are destroyed and cannot cause illness or irritate asthma or allergies.

"When you put your trust in us, we intend to make it the last decision you need to make about who should service your home for heating and air conditioning. This is not just a job for us. We consider the opportunity to work on your home a sacred trust and we demonstrate that by treating you and your home with the respect it deserves," says Strandberg.

BWS specializes in Daikin products, the number one global heating and air conditioning company. For over 90 years Daikin has offered world class heating and cooling systems and currently holds roughly 47,000 employees worldwide. Daikin products lead the industry in innovation and quality. BWS is a certified Daikin dealer, reserved for the select dealers in a given market that can meet the rigorous technical qualifications imposed by Daikin.

Although BWS specializes in Daikin, their technicians are experienced with all makes and models of furnace, air conditioners, heat pumps and humidifiers and are licensed to provide a full range of heating and air conditioning repair, sales and installation services for the seven county metro area.

?We offer maintenance agreements for homeowners and commercial customers to keep their heating and air conditioning equipment working at peak efficiency to save money and prolong the life of the equipment,? says Bruce Strandberg, president of BWS Heating & Air Conditioning.

BWS is also offering \$77 air conditioner and furnace tune ups. According to Energy Star, it?s best to keep your cooling and heating system at peak performance by having a contractor do annual pre-season check-ups.

Founded in 1980, JGM Properties works with over 300 tenants, including BWS Heating and Air Conditioning to provide commercial real estate (office, warehouse, and retail space) for rent in Minnesota. JGM Properties owns and manages the Carlson Business Center, as well as 15 suburban Minneapolis warehouse, and office space properties.
