

Cardea Luxe Releases New Video On How To Reduce Under Eye Dark Circles

December 15, 2016

December 15, 2016 -

Reno, Nevada based Cardea Luxe Skin Care has recently announced the launch of a new YouTube video. The video discusses under eye dark circles and what men and women can do to minimize and remove them. It outlines the many reasons that one may experience dark circles, including natural aging, and highlights various ways that these circles can be diminished.

Joseph Meli, a spokesperson for Cardea Luxe Skin Care, says, "Dark circles can be caused by any number of things from allergies to lack of sleep and even blocked sinuses. Our revolutionary Radiance Eye Renewal Cream can help to eliminate those circles and give you younger looking skin."

In the video, various natural methods of alleviating under eye dark circles are also discussed, including getting more sleep and avoiding salt, sugar, and caffeine. It explains why water is important for the skin and how much water one should drink every day for healthier, younger looking skin. In addition, the video offers natural remedies, such as cold water compresses and eating dark chocolate that can also help.

"Our eye cream has been proven to help eliminate dark circles under your eyes," says Meli. "We also want to

point out a few things that you can do on your own, such as natural remedies, that will help to speed up the process and make the effects more permanent."

Meli states that combined with natural remedies, using the company's Radiance Eye Renewal Cream regularly can significantly diminish dark circles as well as fine lines and crow's feet that many women and men experience as they grow older. The eye cream contains natural ingredients such as cocoa seed butter and jojoba oil as well as retinol, which is a proven anti-aging remedy.

The eye cream also contains lightening agents to instantly lighten up under eye areas and astringents that help to reduce blood leakage from capillaries, another cause of dark under eye circles. Meli states that the ingredients in the eye cream have all been tested to determine that they do in fact help to eliminate dark circles and other signs of aging. Those interested can access the new YouTube video via the company's website.
