Remove Urine, seller of the top-rated Severe Urine Neutralizer (SUN) pet odor remover currently available on Amazon.com, is recommending the product for people who want to freshen up their homes for the upcoming holiday.

It has an average rating of 4.3 out of 5 stars. The product has been reviewed more than 460 times to date and has received praise for its ability to quickly and safely remove urine odors and stains left behind from cats and dogs.

With many homeowners, who also own pets, expecting visits from family members during the upcoming holiday season, the product is being recommended as a quick solution to eliminate unpleasant odors that could be lingering within the home. Additionally, it is considered an ideal solution for those who plan to entertain guests but want to get out any pet odors that are present. SUN Pet Urine Remover is not only

guaranteed to eliminate the most stubborn pet urine stains and odors, it is also safe to be used on a variety of surfaces within the home, including concrete, carpets, mattresses, laundry, and furniture.

SUN Pet Urine Remover is a polymer-based solution that works by bonding with and absorbing odors at the molecular level. In addition to urine smells, it is also useful on all organic odors, such as those resulting from vomit, skunk spray, and food spills.

Sold in a 4 Oz bottle, the pet odor neutralizer makes two quarts of spray solution. Remove Urine recommends this solution above air fresheners, which may only provide a temporary fix.

?You can't just spray air freshener, you have to go to the root of the problem and eliminate the odors from the base of the surface, no need to be concerned, SUN will remove the odors,? said a Remove Urine representative.
