December 19, 2016 -

An affordable and effective pet urine remover is considered an essential item for pet owners to have, especially those with young puppies and kittens. One product that has been getting attention from shoppers, as the holidays approach, is the Severe Urine Neutralizer (SUN), which is sold by Remove Urine and currently available on Amazon.com.

An industrial-grade odor and urine stain remover, SUN is a polymer-based cleaner that is formulated to permanently remove all traces of cat and dog urine on contact. It works by binding to and absorbing odors at the molecular level, leaving treated areas with a light, pleasant fragrance. Additionally, the product works safely on a variety of surfaces, including concrete, carpets, mattresses, laundry, and furniture, without causing damage.

SUN pet urine remover is available in a convenient 4 Oz bottle that makes two quarts. It is ready to be used in just three steps, which includes adding water and applying with a spray bottle. Pet owners with puppies or

kittens, which often urinate on surfaces inside the house, can use the product to safely eliminate odors and stains while training their animals.

In addition, the pet urine remover and odor eliminator is considered suitable for pet owners with old or otherwise disabled pets that may be physically incapable and are prone to passing urine on surfaces inside the home.

?I have a 19 year old cat that I love dearly. She has some Feline Dementia and often can?t locate the litterbox. S.U.N. destroys the urine's odor on my floor and leaves a great fresh scent,? said Alex J. Miller, a verified Amazon reviewer.

A number of other shoppers have expressed similar sentiments about the product, which has amassed hundreds of positive reviews. The product has also been praised for its ability to get rid of odors and stains related to other messes, including vomit, skunk spray and food.

With the Christmas holiday season only a few weeks away, Remove Urine has recently restocked the SUN Pet Urine Remover. The company recommends the product as a suitable gift idea for people seeking thoughtful and unique gifts for loved ones.
