

Integrity Exports Launches Redesigned Website Featuring Japanese Car Auction Academy

December 19, 2016

December 19, 2016 - PRESSADVANTAGE -

Integrity Exports offers a updated and expanded website, including the Japan Car Auction Academy - the most comprehensive source of information about purchasing cars online from Japanese car auctions.

Ikeda-shi, Japan: Integrity Exports Co., Ltd is pleased to announce the launch of their redesigned website, featuring the all-new Japanese Car Auction Academy. The new site also includes a responsive version of the online Japanese car auction system, making the process of buying cars from Japan easy to manage on a smartphone or tablet, not just on a laptop or desktop.

Integrity Exports finds that the most successful importer customers are those who really understand the process best, which is why they created the The Japan Car Auction Academy. This is the most comprehensive collection of information about buying cars from Japanese car auctions anywhere online. Integrity Exports' old site was already well-known for the quality of its information, but the new Japan Car Auction Academy takes this to a new level that will cement Integrity Exports as the premier website for buying

cars from auctions in Japan.

Integrity Exports offers a unique combination of guarantees, service and straightforward integrity that is unavailable elsewhere and which is attested to by almost 40 third-party verified customer reviews. More than seven million cars annually are processed through Japanese car auctions and Integrity Exports's customers can bid on any of these cars in Japan's 124 used car auctions through Integrity Exports' online Japanese car auction system.

Integrity Exports makes buying cars from Japan safe and secure. There are no communication mix-ups or broken English as customers always deal with native English speakers and translations of auction inspection reports are always done by professional translators. In addition, Integrity Exports guarantees they will never overrun customer's budgets, and they are transparent in providing proof that the auction prices they charge are accurate and not inflated.

Integrity Exports was started in January 2011 by Stephen Munday and Seiji Tanaka to bring a new standard of integrity to the Japan used car export industry. Since then, Integrity Exports has exported well over 3500 vehicles to 22 countries worldwide. Integrity Exports expects the launch of their new website and online system to mark the start of a new burst of growth for the company.
