

Houston Landscaping Services Provider Sunrise Lawn & Landscaping Now Offering Licensed Sprinkler Repair

June 11, 2015

June 11, 2015 -

Sunrise Lawn & Landscaping, a full-service Texas-based lawn maintenance company, now offers sprinkler repairs and installation. Sunrise Lawn serves all of Houston and its surrounding area.

They install high quality irrigation and sprinkler system products from the best manufacturers, which ensures the quality of their repairs' and installations' performance and dependability. All sprinkler installations and repairs are done by licensed irrigators.

Sprinkler systems with leaks or problems that go unseen cause dry spots in your lawn, or overwatering on the sidewalk or neighboring areas. Lack of sprinkler systems in a lawn can also be tedious maintenance work.

Sunrise Lawn & Landscaping has the necessary experience and technology to address sprinkler leaks and repairs. They have been providing professional landscaping and lawn care service for over 20 years.

The company is locally owned and operated, hence there is faster response time and more familiarity to the community. Areas that Sunrise Lawn & Landscaping serve Houston landscaping services include Bellaire, Katy, and Sugar Land.

The company also offers the following as part of their sprinkler repair services: lawn sprinkler system maintenance, garden sprinkler repair, automatic sprinkler timer / controller repair, drip irrigation and drip systems repair, replace / repair automatic valves, track wiring / locate buried valves, fix / replace backflow device, locate and fix broken pipes, troubleshooting, correct low-pressure problems, water feature leaks / repairs, and pump replacement on water features.

Sunrise Lawn & Landscaping serves both residential and commercial properties. They offer include mosquito control, landscaping, lawn care, hardscaping, and garden care. Additional Houston landscaping services include weed control, sod installation, snow removal, lawn aeration, irrigation, and flower beds.

Sunrise Lawn & Landscaping is lauded not only for their experience in the industry, but also for their honest and reliable work, customized services to all clients, affordable services, and sound guidance and consultancy throughout the whole repair and servicing process.

"Sunrise Lawn & Landscaping provides great service and is recommended for their lawn and landscaping work [sic]," says one anonymous customer, leaving the company with a five-star review.

Renzo Oordt, a customer of Sunrise Lawn & Landscaping, also reports, "Austin works really hard for the whole health of the yard rather than just moving the grass. He's been teaching us how to care for a lawn in Houston to get the best results.

"Before we hired Sunrise Lawn & Landscaping, we had kind of a Darwinian approach to our yard. If we planted it and it lived, it was the strongest and meant to survive. We would either over or under water or not cut the trees back at the right time of year. Now Austin is guiding us to learn how to treat the yard better and keeps it well mowed for us. We really appreciate the service and quality he offers."
