

Montreal Cleaning Professionals Provide Environmentally Friendly Products And Services

December 22, 2016

December 22, 2016 - PRESSADVANTAGE -

ProPlus-Ménage offers residential and commercial client services which use environmentally responsible products and procedures. The Montreal and Brossard firm covers the Greater Montreal, South Shore, North Shore and Laval areas.

Montreal Quebec: ProPlus-Ménage is pleased to announce that the commercial cleaning company (Compagnie de ménage commercial) carries and uses a line of environmentally friendly products. In addition, to products which provide cleaning without the incorporation of harmful and harsh chemicals, the professional teams use procedures which do not affect the health of people and pets within the structure. The products and techniques used ensure that the surfaces are thoroughly cleaned, without leaving harmful residue in the structure.

Commercial cleaning (Nettoyage commercial) on a one-shot or ongoing basis is available from teams in the Greater Montreal Area, Brossard, Laval, the South Shore and the North Shore. The team is dedicated to

building and maintaining lasting relationships and trust with customers, by giving them complete satisfaction through the quality of service. Only honest and attentive franchisees are recruited in order to remain attentive to the needs of customers. All customers receive a 100 percent satisfaction guarantee.

A spokesperson for the company explained, "ProPlus-Ménage commercial cleaning (Entretien ménager commercial) recognizes that each client has different needs. We remain attentive to your requirements and will treat each client request with care and attention. We provide regular commercial housekeeping on a daily, weekly or periodic basis of the premises, whether the space is offices, or is a single project. We will be pleased to provide a free-of-charge site visit to assess needs and issue a written price quote."

The franchisees and cleaning teams are provided with the best training and measurable cleaning processes which allows the company to offer each client with the best cleaning services. The job is not considered complete until the customer is satisfied with the results. The best products for environmental safety and responsibility are selected and applied in ways that protect the health of people and the planet. The products and methods are used to ensure that there is no impact on the wellness of staff, customers and the environment.
