Pensacola Tire Dealer Celebrates Seventh Anniversary

December 30, 2016

December 30, 2016 -
Butler's Tire & Accessories in Pensacola, Florida recently celebrated its seventh year in business. This division of Butler Auto Recycling was established in 2007 to provide used tires and auto part accessories.

"We saw an opportunity back then to provide our customers with a wider range of the products that they need," says Jim Butler with the company. "We are excited that our customers have helped us to retain this division over the past seven years and look forward to serving them for many more years to come."

Butler's Tire & Accessories is a premier tire dealer Pensacola customers have come to rely on over the years. The company offers used tires, each with a guarantee, and has a warehouse stocked with more than 2,000 used tires of singles, pairs, and complete matching sets for a wide range of vehicles.

"We keep track of all new and used tires with a state of the art computerized inventory system," says Butler. "This allows us to provide our customers with a comprehensive updated inventory at all times."

Jim Butler states that the company can offer accurate quotes for customers at all times and that they stock more than 2,000 factory wheels in addition to their inventory of tires. He states that customers in need of Pensacola tires have come to trust the company over the past few years for fair and honest pricing and states that they can normally cater to all individual and commercial customers.

The company offers tires in a wide range of sizes. It also provides used and reconditioned batteries, flat tire repair, aftermarket stereos, speakers, and a range of additional accessories for cars and trucks. Jim Butler states that customer loyalty has kept them running over the years and has vetted them as the number one company for used and new tires Pensacola residents can depend on.

The company states that they regularly receive new inventory of running boards, trailer hitches, and various other products, and that interested customers should frequently check the company website for updated inventory information. More about the parent company and their used tire division can also be seen on their website.
