

## **Las Vegas Dispensary Announces Opening**

*December 28, 2016*

December 28, 2016 - PRESSADVANTAGE -

Medizin offers a selection of approximately sixty strains of locally grown medical THC in concentrates and infused products. The strains of product are hand-selected for efficacy.

Las Vegas NV: Medizin Las Vegas is pleased to announce that they have opened a local dispensary to distribute as many as sixty strains of Las Vegas medical marijuana which is locally grown and hand-selected. The products come in several forms, including concentrates and infused products. The concentrates are pure and potent distillations of THC available in a variety of concentrations to meet every need. Infused products are distilled THC available in capsules, sprays and other traditional pharmaceutical formulations.

The premiere Las Vegas marijuana dispensary recognizes that growing the medicinal plant is an art form and is treated as such by the producers. All plant genetics at Medizin are hand-selected. Careful attention is paid to the process of cultivation to assure that each product is the best in class. Quality, convenience and compassion at an affordable price is the goal of the dispensary.

A spokesperson for Medizin explained in a recent interview, "Our full-spectrum lighting and advanced timing

techniques are designed to elicit optimal gene expression of every strain and plant. At the peak of potency, flowers are hand trimmed and sealed in nitrogen to preserve them for the best possible efficacy. Our firm strives to provide the highest quality medicinal products, extracts and infused products at affordable prices.?

The company believes in empowering patients to take care of health through proper education and access to quality treatment. The information includes details about alternative healing services. The outlet exists to assist approved patients in Nevada in safe, clean and state-of-the-art facilities. The professional team at Medizin is devoted to patient education. The guiding staff members include Robert Groesbeck, President; Larry Scheffler, Chairman; and Christopher Wren, VP of Operations.

The team is committed to serving those in need of the highest quality products, including veterans, the critically ill, and those suffering from chronic illness. The opportunity to improve patients; quality of life and general health is what drives the professionals every day.
