Brendale Firm Expands Throughout Australia

December 28, 2016

December 28, 2016 -
The business which launched in Southern Australia now offers its products and services in all of the country. The customers who choose custom marquees have the opportunity to encourage local participation by potential buyers or service users.

Brendale QLD: Australian Flag Makes and Ben Beazley are pleased to announce that their years in business have resulted in an expansion of their product line, as well as in their scope of operations. The company offers its custom printed marquee to customers in Queensland and elsewhere in Australia. The marquees are designed to catch attention for products and services offered by the businesses who use them. The booths are suitable for a variety of products or services.

The printed marquees Brisbane products can be used as a background for lettering, graphics, logos or artwork. The inks used in the printing are selected to be long-lasting and to be resistant to the ultraviolet rays of the sun. The bright colours or images won't fade over time. They will remain crisp and clear throughout the life of the walls and canopy. The frames of the unit are guaranteed to last for a minimum of three years.

Any logos or graphics can be printed on the side and back walls of the booth. The canopy can also have printing or designs which help to catch the attention of potential customers and clients. The type of event can vary from an outdoor booth at a fair to an indoor corporate event or trade show. Shade at an outdoor fair or segregation of space indoors are both suitable uses of the printed marquees.

Easy transport is another feature of the marquees. It is lightweight and easy to move around. The booth can be moved to the desired location and set up in a matter of minutes. The pop-up design is easy to handle, even with just one person to take care of the logistics. When the show or other event is finished, the booth can be taken down and stored just as easily, until next time it is ready to be used.
