

Newly Released Facebook Traffic System Helps Struggling Internet Marketers Get Low Cost Targeted Traffic Fast

December 28, 2016

December 28, 2016 - PRESSADVANTAGE -

Getting targeted web traffic can be a challenge - and getting ever more costly. In fact, many of the traffic systems that are still advertised all over the web no longer work nearly as well as they are supposed to. That's why My Favorite Web Stuff's Elisabeth Kuhn is so excited to announce the new Facebook Group Traffic System.

Kuhn noticed first hand that her old traffic-getting methods weren't working so well anymore. She was very excited when she discovered the Group Traffic Profits system created by veteran marketers Brett and Mike.

In fact, she was so excited that she took advantage of the opportunity to license the product and with it the right to sell it. The system includes three key components:

- 1) The Group Traffic Training

The training includes a thorough step-by-step video course that guides the viewer through the entire process,

from setting up and growing a Facebook group to getting traffic from the group to any site or product they wish to promote.

In addition to the training, the course also comes with two powerful pieces of software:

2) Image Maker Pro

Image Maker Pro can be used to easily create professional-quality viral images for Facebook.

It comes preloaded with hundreds of great images as well as templates. It is drag and drop, so expensive designers are no longer needed.

3) FB Link Post 2.0 Plugin

FB Link Post is an upgraded and as of yet unreleased version of a powerful FB link post software that makes people's entire post graphic clickable instead of just the small text link.

This makes posts more likely to go viral, which brings even more traffic. It also includes click statistics for all link posts so users can easily see what works.

"This product is a total game changer, with the detailed training and those powerful plugins that are included," Kuhn says. "Getting traffic doesn't have to be expensive anymore, plus the traffic the system generates is super targeted."

She offers a special deal on the program, plus a valuable bonus. Details are available in her Group Traffic Profits Bonus post: <http://www.myfavoritewebstuff.com/talkspot/facebook-group-traffic-profits-bonus>.
