

SEO Houston Pros Offers Free Website Audit

January 09, 2017

January 09, 2017 - PRESSADVANTAGE -

SEO Houston Pros, a digital marketing agency in Houston, TX, catering to the entire state of Texas, now gives each of their potential clients a free SEO audit. This audit will show them exactly how the website is currently performing, and how their competition may be dominating the first page of Google. In so doing, the company has set itself apart as being the one stop shop for every business' online needs. The Houston SEO specialist also caters to social media marketing, 1st page domination, video marketing, and more.

Garrett Laidler from SEO Houston Pros says: "SEO continues to be the most important tool available to gain online recognition. While people know this, what they often don't know is where to begin, because they don't know where they stand. The website audit that we will provide without charge will answer all these questions for them, showing them how they are doing, what they are doing right, and where they need to improve. This audit is no obligation."

SEO Houston Pros offers their services to all of Texas, but they focus specifically on local online marketing. This is another important element of SEO (Search Engine Optimization) as a whole, and helps to attract more local clientele. This, in turn, is something that the Google spiders search for when they decide how to rank the different pages. Local SEO includes a number of specific strategies and actions, which SEO Houston Pros is well versed in.

Those who have worked with the company have left very positive reviews about their experiences. "At first I was skeptical about using an SEO company, I just wasn't sure if it was for me," says Gerry J. on the company's Facebook page. "Lucky for me, SEO Houston Pros proved to me that they can run a successful campaign. I didn't understand how amazing it is to be ranked on Google for the right keywords until I was there, and the phone calls started flooding in."

SEO Houston Pros now also offers free SEO training to those interested in further enhancing the online visibility of their website. Full details are available on the company's website.
