

# Columbia MD Contractors Launch New Website

*January 03, 2017*

January 03, 2017 - PRESSADVANTAGE -

High Point Remodeling offers experienced and knowledgeable remodeling contracting services. The company is ready to perform expansion, roofing, bathroom and kitchen work throughout Howard County.

Columbia MD: High Point Remodeling and Chris Garliss are pleased to announce the launch of their new website. The site is designed to explain the philosophy of the company as well as their skills and experience. The home remodeling firm specializes in kitchens, bathrooms, roofing, windows, doors and siding. The experts at the company can help to bring clients' ideas to life. The designers will work with the customers to ensure that the final product is exactly what the client wants.

The Howard County home remodeling team has built a positive reputation over the years in operation. For decades, they have been completing remodeling jobs to the satisfaction of clients. The crews are up-to-date on the latest construction and remodeling techniques. They maintain the highest and most stringent of certification standards. Certification by General Aniline & Film (GAF) has a history of more than a century. The certification is difficult to obtain and must be maintained.

Chris Garliss explained in a recent interview, "We offer free estimates to our customers. We can tell you what it will cost to get the job done, before we begin the remodeling process. We are a company that is the right size to get things done. We are small enough to care about each of the customers. The professional team covers all of Howard County, including Columbia, Clarksville, Ellicott City, Jessup, Laurel, Scaggsville, Fulton and others."

Major areas of focus for the company include roofing, siding and windows. The company also has the skills to install or repair doors. The top brands for doors and other products are carried by High Point in order to ensure that the products will be viable and attractive for years of reliability. Products such as siding carry a lifetime guarantee. The quality siding requires no more painting and also provides a layer of insulation.
