

Just Released: The Best Ultrasonic Diffuser For Your Home

June 25, 2015

June 25, 2015 - PRESSADVANTAGE -

Soothing Lotus, an American owned manufacturer of aromatherapy products, recently released the Ultrasonic Essential Oil Diffuser to the market. This Soothing Lotus diffuser is a portable and compact electronic essential oil diffuser that can be conveniently used at home, in the office, or while on transit.

It works by adding water to the water tank for humidification and the essential oil of your choice. The humidifying effect can up to at least 4 hours and has an automatic shut off functionality as an energy-saving and safety feature.

The Soothing Lotus Ultrasonic Essential Diffuser also functions as a night light with its 6-LED colored lights, which you can opt to turn on or off using the two-button system. The two-button system also allows you to turn on mist for a better and soothing experience. Many customers also enjoy the rotating mood lights and fixed-light-color features.

Other features of the Ultrasonic Essential Oil Diffuser are the following: sleek and modern design (3.8 x 3.8 x 6.5 inches), lightweight (1 pound), BPA free, and full-diffusing action that leaves no residue on the machine.

The Soothing Lotus diffuser has been considered as one of the best ultrasonic diffuser for its quality and customer service. Soothing Lotus offers a 100% refund program for unsatisfied customers. The average rating for the Soothing Lotus Ultrasonic Essential Oil Diffuser on Amazon.com is 4.8 out of 5 stars.

Betleymom sums up the features and experience in using the Soothing Lotus diffuser:

"Best thing ever invented! I am currently using my diffuser right now as i type this. I have 'grapefruit' in, for stress while I am at work. This Electric Ultrasonic Essential Oil Diffuser is amazing, seriously. I love how small and compact it is, yet it puts off such an awesome diffuse. It puts out the perfect amount of oils into the air. I love how it can change many different colors with a press of a simple button. This diffuser is perfect for ANY room. It has a slight sound, yet it is very quite which is great for my son going to sleep. There are different settings you can set it to depending on how fast or slow you want the vapor misting out. When opening the box I seen it comes with the diffuser, a measuring cup, a wall adapter, and instructions. The adapter's cord is very long so it can reach many places. I love how simple it is to use, yet even simpler to set up! It also has an automatic shut off in 4 hours, which is great to not run up your electricity bill. I received this at a discounted price for my honest opinion."

You can get more information about the product by visiting the Soothing Lotus official website.
