

Free Sustainable Summit Launches January 16th, 2017

January 04, 2017

January 04, 2017 -
Boynton Beach, FL: Starting on January 16th, 2017, preppers, homesteaders, survivalists and people from all corners of the community are invited to attend the Sustainable Community Summit. Attempting to transition from a dependent lifestyle to one of complete self- reliance and sustainability, can be a very difficult task to accomplish in this day and age. This online event is engineered to assist anyone who has the desire to start living a more sustainable lifestyle, with finding the time to make the necessary changes to be successful in their endeavors.

?There are more people living an unsustainable lifestyle than there are living a sustainable lifestyle,? states Alan James, host of the Sustainable Community Summit. ?This is a byproduct of advancements in technology. The Industrial Age stripped us of the need to grow our own food, collect and purify our own water, raise our own livestock, and live off the land. It is our hope that this summit sheds light on the freedom associated with developing and maintaining a sustainable lifestyle.?

Anyone who is interested in attending the free Sustainable Community Summit will hear the informed opinions, suggestions, and recommendations of experts in the field on topics such as; Gold And Silver Buying Made Easy, How to Barter Your Way to a Better Life, How To Put Together A Community Government, How To Protect Yourself And Your Community From An Intrusive and Malicious Government, Health In A

Sustainable Community, Crisis Solved: How to Maintain a Clean Water Supply, How To Establish A Sustainable Community Food Supply, Find Your Fit----Many Types of Sustainable Communities, plus so much more.

?The sustainable lifestyle is a free lifestyle,? explains James. ?When you are able to grow your own food, raise your own livestock, produce your own power, and live off the land, you no longer have to worry about living paycheck to paycheck. You will be able to reduce your expenditures in several different categories, which equates to keeping more of the money you have earned. You will be taking back control of your life, living it the way it was always meant to be, and eliminating the stress that occurs as a direct result of the pressure to succeed in the competitive world that requires you to be dependent on others.?

The Sustainable Community Summit will feature a total of 24 experts from various fields in sustainable living. Liz Walker, Rae Machado, Amy Maryon, Stefon Gleason, Amy and Dr. Joe Alton, Sheriff Richard Mack, Tawnya Sawyer, Joe Quirk, and Willem Middelkoop just to name a few. All those who are interested in attending the Sustainable Community Summit may register for free, preview a full list of scheduled speakers and the titles of their presentations at http://register.360summits.com/sustainable-summit.
