

Top Ultrasonic Diffuser For Essential Oils Now 47% Off Original Price

June 29, 2015

June 29, 2015 - PRESSADVANTAGE -

The Soothing Lotus Ultrasonic Essential Oil Diffuser, one of the top rated ultrasonic diffuser for essential oils on the market, is now 47% off from the original price of \$95.00, making \$49.97 for a limited time.

The Ultrasonic Essential Oil Diffuser is a compact and portable electronic oil diffuser that was designed to be conveniently used in the home, office, or while traveling. Unboxing the package gives you the Soothing Lotus ultrasonic diffuser for essential oils, plugin power unit, an easy-to-follow instruction manual, and discount coupons for essential oils.

Part of the 47% off is the inclusion of a copy of the ebook *The Ultimate Guide to Essential Oils: Learn How to Use Essential Oils to Support Your Mind, Body, and Soul*. The ebook provides details and information of the uses and healing benefits of different essential oils.

The Soothing Lotus home diffuser is easily used by plugging in the device, pouring water to the humidifier water tank, and adding a few drops of essential oils. The diffuser will run at least 4 hours with a full tank. It also has an automatic shut-off functional to prevent overheating and overusage of electricity.

The aromatherapy diffuser uses whisper quiet technology to keep the sound level to a minimum and has an ultrasonic function for the humidifier for the maximum dispersion of oils, leaving very little residue behind.

The product not only functions as a ultrasonic diffuser for essential oils, but also as a night light. The diffuser has a simple button system for the LED lights that allow you to adjust the color very easily. Specifically you can opt to turn off the light while having the mist function on; you can turn on the mist function and mood light rotation function; you can choose your favorite color to run only along with the mist function; or you can simply use the light functions without using the mist function.

The product also comes with a 100% money-back guarantee if you are not satisfied with the experience. In Amazon.com, 87% of customer reviews rate the Soothing Lotus ultrasonic diffuser 5 stars. A review from Samantha Marie says:

"This one is very affordable and does what it says it will do. It has a simple elegant look but has awesome features for lighting. You can leave it with no light, have multiple colored lights in a sequence or just pick one color. You hold down the right button until it beeps and press again and it starts the humidifier. For the lighting you hold down the left button until it beeps, press again and it changes colors. You can keep pressing it if you want to pick a specific color. Its also very easy to add the water and oil. All you do is lift up to 'lids' and there's a fill line to show how much water to put. I put 3 drops of lemongrass inside the water and immediately it began to diffuse this amazing scent into the air. This essential oil diffuser really exceeded any expectations I had and ill highly recommend this brand to my friends and family!"
