

Pirate Ship Playhouse To Be Presented At Barrett Jackson Auto Show

January 09, 2017

January 09, 2017 - PRESSADVANTAGE -

Dixon Woodworking, a company in Scio, OR, that produces unique wooden playhouses, is proud to announce that they will have a booth at the 2017 Barrett Jackson Auto Show in Scottsdale, AZ. At the event, they will also be presenting their Luxury Pirate Ship Playhouse, which is one of their most popular items. The Barrett Jackson auto show will take place from January 14 to 22, 2017.

Jeff Dixon, owner and founder of Dixon Woodworking, has this to say about the playhouse: "A piece of art that the whole family can play on and enjoy, can also be used as yard art."

The 20-foot Luxury Pirate Ship Play House, which Dixon Woodworking will be bringing to the event, comes with a plan walk swain and slide, and side dock. All of their wooden luxury pirate ship play houses and tiki huts will be on sale at the show. The booth will be located outside at position SL-22. Because of the huge size of the different products that the company offers, only the Luxury Pirate Ship Play House will be present. "We are extremely excited to have a booth to display our awesome pirate ship playhouses, we will be taking our Pirate Ship Luxury model to the show," says a representative from the show.

All Dixon Woodworking products are made from marine grade mahogany and cedar. This means they are made to last and to withstand all the elements. The company only uses the best possible materials to guarantee the products' quality and durability.

When someone purchases a Dixon Woodwork product, the same experts who built it will come and install it as well. As such, it is a full turn key solution. The design of the Luxury Pirate Ship Play House was developed when Jeff Dixon's four year old grandson said he wanted to be a pirate. As a grandparent, he wanted to make all his grandson's will dreams come true. At the same time, he wanted to make it fun for the adults as well, which is why he added interesting little details, such as the complete programmable sound system for music and sound effects.

When it comes to luxury playhouses, Dixon Woodwork points out that they strive to set the standard as high as possible to ensure customer satisfaction.
