Dr. Charles Livingston says he has figured out how to target the root cause of cellulite, and has put all his knowledge into his program, Cellulite Factor Solution for anyone to use and benefit from. This has caught the attention of HealthyandFitZone.com?s Stan Stevenson, prompting an investigative review.

?Our Cellulite Factor Solution review shows that you get access to 8 videos that demonstrate exercises that help you bring your connective tissue back to life and restore everything back to its healthy state. This is one step in getting rid of cellulite. The exercises are designed to target cellulite in all areas of your body,? reports Stevenson. ?These exercises will help you improve circulation, gain fresh blood and improve nutrition in problem areas. They are scientifically proven, easy and straightforward. There is no room for error in this program because you are shown exactly what you need to do for success. Some people are cellulite-free within 14 days of using it.?

Cellulite Factor Solution also includes access to 13 videos that women can use to gain strength as they become comfortable with the basic exercises. The videos are done in a progressive manner, which helps them stay challenged and avoid plateaus. Those who want recipes to fight cellulite will love the cookbook that comes with the program. They also get a cellulite-busting blueprint for the next 30 days, a handbook to bust toxins, a done-for-you grocery list, a meal plan for the next 30 days and a guide to understand supplements and how they play a part in their cellulite. The program also comes with a workout generator to create over 20,000 workouts once 30 days are over. They will also find a library that includes exercise instructions, so that they do the workouts correctly. They get a timer that tells them when to workout, rest and stop.

?Learn the real cause of cellulite and how to treat it. Help your friends and family understand the truth and get them off the expensive hamster wheel of creams and other treatments. The exercises are short and low impact and you can access the videos on any device,? says Stevenson. ?Everything is instantly downloadable. You can run out and get the creams that get rid of cellulite, or try wraps, laser treatment, or brushes, but those treatments can cost a lot, and if they really worked to get rid of cellulite, all women would be using and recommending them. You can eliminate cellulite for good once you have an understanding of

why it happens.?

?The power is in your hands. You can keep covering up and feeling upset with your stomach, thighs, legs, butt or hips or, you can take a chance on Cellulite Factor Solution and see what happens. If you try this, you will get the exact results you are looking for. This program has the potential to eliminate cellulite and save you a lot of money. It is guaranteed to work and you can help everyone else understand exactly what they want to know about cellulite and getting rid of it forever. It doesn?t matter how long you have had cellulite, why you think you got it, or how bad it is; you can reverse it. ?
